

# Next Steps

# Your Participation

- Your feedback is requested:
  - > Structure of OMC activities
    - > When to form independent OMC entity?
  - > Legal Terms and Agreements
  - > Intellectual Property Analysis
  - > Usage Scenarios
  - > Requirements

# Continued Technical Work

- DReaM-CAS
  - > Draft Specification available
  - > Prototype source code implementation available
  - > Evaluation and incorporation of feedback (including other contributions)
  - > Enforcement

# Continued Technical Work

- DReaM-MMI
  - > Draft Specification available
  - > Prototype still under development...
  - > Evaluation and incorporation of feedback (including other contributions)
  - > Enforcement
  - > Add “Rich” mode?

# Continued Technical Work

- DReaM-D15N
  - > Currently adopted “OPERA” Specifications (EURESCOM)
    - > Source code available now...
  - > Evaluation and incorporation of feedback (including other contributions)
  - > New DReaM-D15N Specification?

# Continued Technical Work

- New work items:
  - > Downloadable configuration & refreshability
  - > Client-side robustness rules
  - > Enforcement

# How to stay involved

- Discussion of usage scenarios to move to OMC Community Forums
  - > <http://OpenMediaCommons.org/forums/>
- Follow-up meeting to create targeted, prioritized use cases
- Identification of any specific requirements implied by use cases and add to requirements/conformance documentation
